Ecourge
INNOVATIONS

Company Profile · 2026

IT CONSULTANCY & SOFTWARE DEVELOPMENT · SINCE 2021

We turn bold ideas into software.

Ecourge Innovations is the IT consultancy that stays for the build — from strategy and design to cloud, mobile and AI — for startups and established businesses in India, the UK and the US.

Who we are

Ecourge Innovations Private Limited was founded to give businesses a technology partner they can trust: one that listens first, recommends only what is needed, and then builds it properly. Senior-led teams, your code and IP always, and an NDA on every engagement.

Mission & vision

Help businesses make confident technology decisions and turn them into reliable, well-crafted software — and be the consultancy clients recommend first, known for clarity, craftsmanship and lasting partnerships.

SERVICES

Everything you need to plan, build and scale

01
IT Consulting & Strategy
Clear, practical advice on what to build, buy or retire, with a roadmap your team can follow.

02
Custom Software Development
Software shaped around how your business works, from internal tools to full SaaS products.

03
Web Application Development
Fast, secure and scalable web apps with front ends people enjoy using.

04
Mobile App Development
Native and cross-platform apps for iOS and Android, built for performance and retention.

05
AI & Machine Learning
Assistants, automation, prediction and document intelligence for real problems.

06
Cloud & DevOps
Reliable infrastructure and release pipelines so your team ships often.

07
UI/UX Design
Research-led product design that makes complex software feel simple.

08
QA & Testing
Manual and automated testing that catches problems before your customers do.

09
Dedicated Teams
Vetted developers, designers and QA engineers who plug into your team and process.

HOW AN ENGAGEMENT RUNS · NO BLACK BOXES

1 · Discover
We learn your business, users and constraints, then define what success looks like.

2 · Design
Architecture, UX and a delivery plan, reviewed with you before code is written.

3 · Build
Short sprints, working demos and honest progress updates every step of the way.

4 · Launch & grow
Smooth release, monitoring and ongoing improvements as your needs evolve.

ENGAGEMENT MODELS · WORK WITH US YOUR WAY

Fixed scope
Defined scope, timeline and price. Best for well-understood projects and MVPs. 30 days free support.

Time & material
Pay for the effort used. Best when requirements are evolving. Weekly timesheets, monthly billing.

Dedicated team
A full-time squad with a dedicated delivery manager. Best for long-term roadmaps.

INDUSTRIES WE SERVE

Fintech & Banking · Healthcare · eCommerce & Retail · Education · Logistics · Real Estate · Manufacturing · Travel & Hospitality

Have a project in mind? Let's talk it through.

Free 30-minute discovery call, then a clear proposal — scope, team, timeline and cost — with no obligation. We reply within one business day.
